This place captures you through breathtaking views, tranquility and serenity. It is a place that invites contemplation.

Hattonchâtel is perched on a promontory overlooking the plain of Woëvre and Lac de Madine. Located 20 minutes from the Meuse train station accessible by TGV and less than 1h30 away from Luxembourg City.

In this place, full of history and rich in emotion, the owner/architect/artist creates six one of a kind "pied à terre". Akin to a five star hotel palace, he aims to integrate this former convent into its beautiful surrounding scenery by creating luxury accommodation. This could be a popular choice as a second home, ideal for a romantic trip away or a family weekend. Get inspired, relax or enjoy the active outdoor water sports activities at Lac de Madine.

Discover this unusually charming project and let yourself be enchanted.

These 5 modern housing opportunities all benefit from an entrance hall, a living room, a bedroom, a kitchen and a fantastic private terrace.

This project is designed and developed by the same architect as "Lili's Garden" in Luxembourg.
